

5. 近似字(**Handling of possible duplicate**)

In principle, even if glyphs that have only subtle differences are worth keeping, and they would be encoded individually.

But in the [N5089 Q3](#), two sets of very similar glyphs were adjusted. Due to Xu Shen(許慎) clearly stated that Guwen and Zhouwen should not be resembled. To improve the glyphic difference, the representative glyphs would be updated by using other versions, as explained in the following table:

為了保持《說文》小篆系統與兼顧前項「重複字形」只編碼一字的原則，在比對他版本之後，以差異較大的字形代替。

Vol-No. 卷次-序 號	Serial No.總 序號(含新附 字)	Original Glyph 原圖	TTF Font 字 型	Corresp Modern Char. 今字	SW Radical 正篆部首	SW Radical Number	Type	Note
5-552	03832			臺(臺)	臺	189	Zhengzhu an	參閱 WG2#68 N5089
13-653	10207			壙	土	480	Zhengzhu an	
13-654	10208			壙(臺)	土	480	Variant	

說明：

卷五 與卷十三 ，字形相近，但一為「臺」字，一為「壙」之「古文」。字義不同，皆得保留。

經比對，因古文風格各本大抵近似，無可代換，故置換卷5「臺」字篆形，以北師大小篆字形。差異處為，卷5原圖「一」處為斜筆，北師大小篆為圓弧。
